

## Nemak Press Release

Monterrey, Mexico. May 30, 2017. - Nemak, S.A.B. de C.V. (“Nemak”) (BMV: NEMAK) informs today that it will make the following changes to its management team, effective June 1, 2017.

Building upon our leading position in automotive lightweighting solutions, we are creating a new global organization to drive operational execution and future growth in our structural and electric vehicle components businesses.

Josef Nueschen will lead this organization as Structural & EV Components Director reporting to the CEO. This organization will have dedicated resources in the Commercial, Product Development, Operations, and Human Resources functions. Josef has more than twenty years of experience in manufacturing and engineering roles in the automotive industry, recently serving as the head of our high-pressure die casting operations in Europe. He holds an engineering degree from the Technical University of Munich in Germany.

Additionally, we are making changes within our existing organizational structure to further enhance quality and productivity in our operations.

Knut Bentin will assume the position of Business Unit Director Mexico to drive business performance and reinforce the BU’s foundation for future growth. He has previously held several executive positions in Europe and Mexico. Knut earned a bachelor’s degree from the University of Mannheim and a master’s degree from the University of Cologne in Germany.

Dietrich Kahn will now become Operations Director Mexico reporting directly to Knut. In this newly created role, Dietrich will be responsible for strengthening manufacturing systems and processes and leading our continued efforts towards achieving operational excellence at our Mexico plants. He earned a PhD from RWTH Aachen University in Germany.

Taking over as VP of Manufacturing and Product Development, Napoleón Cantú will now focus on standardizing systems and processes across our regions, ensuring best-in-class manufacturing solutions, and coordinating global health, safety and environment initiatives. He has previously held executive positions in several areas including Operations, Commercial, and Program Management. Napoleón earned a bachelor’s degree and a master’s degree from the Tecnológico de Monterrey.

### About Nemak

Nemak is a leading provider of innovative lightweighting solutions for the global automotive industry, specializing in the development and manufacturing of aluminum components for powertrain and body structure applications. The company employs more than 22,000 people at 38 facilities worldwide, generating revenues of US\$4.3 billion. For more information about Nemak, visit [www.nemak.com](http://www.nemak.com)
